Dementia describes a group of symptoms affecting thinking, concentration, social abilities, social behavior and problems with memory loss. Other symptoms of dementia are impaired judgment and speech, changes in personality (confusion, inability to reason, inappropriate behavior, paranoia, agitation, delusions, hallucinations, irritability, anxiety), weakness and uncoordinated movement. Dementia involves damage of nerve cells in several areas of the brain. Alzheimer's disease and other types of dementia worsen over time.

Alzheimer's disease is the most common cause of progressive dementia. Reason of Alzheimer's disease are plaques (clumps of a protein called beta-amyloid) and tangles in the brain.

Causes of dementia and Alzheimer's disease are genetic factors, age, abuse of alcohol and nicotine, circulatory disorders (vascular dementia), stroke, high or low blood pressure, high levels of low-density lipoprotein (LDL), depression, metabolic diseases (diabetes, but also low blood sugar), illnesses of the kidneys and liver, traumatic brain injury (post-traumatic dementia), hormonal disorders (thyroid problems, menopause), nutritional deficiencies (lack of minerals and vitamins), poisoning (heavy metals, pesticides, drugs), brain tumors, hypoxia, lung diseases, heart condition, elevated blood levels of homocysteine, obesity, infections like meningitis and encephalitis, immune disorders (leukemia, multiple sclerosis), nervous system disease and an acidification of the body.

In this naturopathic adviser I will give you recommendations how to treat dementia and Alzheimer's disease with Homeopathy, Schuessler salts (also named cell salts, tissue salts, biochemistry), herbal tinctures and acupressure. I will present you the most proven homeopathic remedies and Schuessler salts, including the appropriate potency and dosage. Homeopathy works holistically. It does not treat only single symptoms. It treats the whole body, spirit and soul.

During the acupressure treatment special points are pressed, massaged or rapped. They lie on the 12 main meridians and the two special meridians, which must be imagined as the energy pathways of the body. As long as the energy is distributed evenly throughout the energy channels, the person is healthy. When the energy flow is disrupted, the person is sick. By treating certain points, the energy between the meridians will be balanced and the patient gets enough power to become healthy.

I wish you much success in your treatment of dementia and Alzheimer's disease, joy of life and especially your health. You will find more information about health in my other ebooks.
