The Late Poetry of the Lake Poets: Romanticism Revised (Cambridge Studies in Romanticism) Tim Fulford

The long-established association of Romanticism with youth has resulted in the early poems of the Lake Poets being considered the most significant. Tim Fulford challenges the tendency to overlook the later poetry of no longer youthful poets, which has had the result of neglecting the Wordsworth, Coleridge and Southey of the 1820s and leaving unexamined the three poets' rise to popularity in the 1830s and 1840s. He offers a fresh perspective on the Lake Poets as professional writers shaping long careers through new work, as well as the republication of their early successes. The theme of lateness, incorporating revision, recollection, age and loss, is examined within contexts including gender, visual art, and the commercial book market. Fulford investigates the Lake Poets' later poems for their impact now, while also exploring their historical effects in their own time and counting the costs of their omission from Romanticism.
