Nature Spirits: Selected Lectures Rudolf Steiner

Based on knowledge attained through his highly-trained clairvoyance, Rudolf Steiner contends that folk traditions regarding nature spirits are based on spiritual reality. He describes how people possessed a natural spiritual vision in ancient times, enabling them to commune with nature spirits. These entities - which are also referred to as elemental beings - became immortalised as fairies and gnomes in myth, legend and children's stories. Today, says Steiner, the instinctive understanding that humanity once had for these elemental beings should be transformed into clear scientific knowledge. He even asserts that humanity will not be able to reconnect with the spiritual world if it cannot develop a new relationship to the elementals. The nature spirits themselves want to be of great assistance to us, acting as 'emissaries of higher divine spiritual beings'.
