Cannibalistic cave dwellers. Huge, terrifying clans roaming the moors, seeking out human flesh to rend and consume. It sounds like the horrors of prehistoric savages, but it falls well within recorded history of civilized men. The first half of the fifteenth century saw savagery and fear that erased the line between man and beast.

Just eight miles east of the modern city of Edinburgh, Sawney Bean and his murderous family prowled the Scottish coasts, robbing travelers and consuming their victims. “Stick... stock... stuck. You’ve run out of luck. Kill... kill... kill. We eat our fill,” they chant as they descend upon their prey. There’s little the community can do but be hunted.

This horrifying tale of nightmare-inducing monsters--inspired by true events--comes into stark reality in **THE FLESH EATERS**, an imaginative novel by Edgar Award winning author L.A. Morse. Beware, any readers faint of heart. It’s those soft hearts that are the tenderest meat.
