Lecture Notes are a resource for those studying and teaching law. Aimed primarily at students taking undergraduate or CPE courses, each title of the series examines a particular field of the law, with chapters for each of the major topics within the subject. Each chapter ends with a summary sheet giving an overview of the issues discussed. A basic analysis of the conflict of laws applicable in England, this book seeks to introduce students to the subject by examining preliminary topics such as when the rules come into play, the need for application, classification and connecting factors. It includes coverage on the rules on jurisdiction, choice of law in relation to contract, tort, property and damages; and full commentary on the law of domicile, family law and recognition and enforcement of judgements.
