"The writing sings" says PW in this "inspiring autobiography." Dr. Mae Jemison, the first African-American woman in space, is truly a modern hero with a remarkable, inspirational story to tell.

Mae Jemison made history as the first African-American woman in space. But she's also taken center stage as an actress, scientist, doctor, and teacher-not to mention all the "top ten" lists she's made, including People's 50 Most Beautiful People AND the 1999 White House Project's list of the 7 women most likely to be elected President. The adventures of her life make for a truly compelling read. And to top it all off, with her charming sense of humor, Mae is a remarkable storyteller. The variety and richness of Mae Jemison's experiences will inspire every reader who picks up this book.
