Healthcare.com: Rx for Reform

Friend David

unclear impact on employee productivity

It is time to discard the old, traditional way of thinking about healthcare and take a fresh look at its issues and challenges. To tackle these challenges we must strike a balance between the seemingly dissimilar disciplines of economics, medicine, technology, and politics. Dr. Friend proposes that we tear down the brick and mortar delivery model and replace it with a Virtual Health Care System.

This new model changes the roles of everyone involved in the healthcare system, from the patient to the healthcare provider. It utilizes technology to redesign health care so that it can be delivered with higher quality and greater efficiency. Healthcare.com: RX for Reform examines the actions necessary for the evolution of our current system into a Virtual Health Care System.
