Multimedia Processing, Communication and Computing Applications: Proceedings of the First International Conference, ICMCCA, 13-15 December 2012: 213 (Lecture Notes in Electrical Engineering)

ICMCCA 2012 is the first International Conference on Multimedia Processing, Communication and Computing Applications and the theme of the Conference is chosen as 'Multimedia Processing and its Applications'. Multimedia processing has been an active research area contributing in many frontiers of today's science and technology. This book presents peer-reviewed quality papers on multimedia processing, which covers a very broad area of science and technology. The prime objective of the book is to familiarize readers with the latest scientific developments that are taking place in various fields of multimedia processing and is widely used in many disciplines such as Medical Diagnosis, Digital Forensic, Object Recognition, Image and Video Analysis, Robotics, Military, Automotive Industries, Surveillance and Security, Quality Inspection, etc. The book will assist the research community to get the insight of the overlapping works which are being carried out across the globe at many medical hospitals and institutions, defense labs, forensic labs, academic institutions, IT companies and security & surveillance domains. It also discusses latest state-of-the-art research problems and techniques and helps to encourage, motivate and introduce the budding researchers to a larger domain of multimedia.

From reader reviews:

James Fletcher:

Book is usually written, printed, or outlined for everything. You can recognize everything you want by a reserve. Book has a different type. As we know that book is important matter to bring us around the world. Next to that you can your reading proficiency was fluently. A e-book Multimedia Processing, Communication and Computing Applications: Proceedings of the First International Conference, ICMCCA, 13-15 December 2012: 213 (Lecture Notes in Electrical Engineering) will make you to be smarter. You can feel far more confidence if you can know about everything. But some of you think that will open or reading some sort of book make you bored. It is not make you fun. Why they are often thought like that? Have you in search of best book or appropriate book with you?

Allie Littlefield:

What do you consider book? It is just for students because they're still students or this for all people in the world, the particular best subject for that? Just simply you can be answered for that problem above. Every person has diverse personality and hobby for every single other. Don't to be forced someone or something that they don't desire do that. You must know how great and also important the book Multimedia Processing, Communication and Computing Applications: Proceedings of the First International Conference, ICMCCA, 13-15 December 2012: 213 (Lecture Notes in Electrical Engineering). All type of book is it possible to see on many sources. You can look for the internet sources or other social media.

Glenda Rogers:

What is your hobby? Have you heard that question when you got college students? We believe that that query was given by teacher with their students. Many kinds of hobby, All people has different hobby. And also you know that little person including reading or as studying become their hobby. You must know that reading is very important and also book as to be the factor. Book is important thing to increase you knowledge, except your current teacher or lecturer. You discover good news or update about something by book. Numerous books that can you go onto be your object. One of them is actually Multimedia Processing, Communication and Computing Applications: Proceedings of the First International Conference, ICMCCA, 13-15 December 2012: 213 (Lecture Notes in Electrical Engineering).

Pamela Eckert:

Reading a reserve make you to get more knowledge from that. You can take knowledge and information from a book. Book is created or printed or highlighted from each source in which filled update of news. In this particular modern era like today, many ways to get information are available for you. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just in search

of the Multimedia Processing, Communication and Computing Applications: Proceedings of the First International Conference, ICMCCA, 13-15 December 2012: 213 (Lecture Notes in Electrical Engineering) when you necessary it?
