Do Trauma Encarnado à Biopatia: A Clínica Bioenergética do Sofrimento Orgânico (Portuguese Edition) Périsson Dantas do Nascimento

Quais as contribuições das intervenções psicocorporais da Análise Bioenergética no tratamento de pacientes com queixas de sofrimento orgânico? Coadunando com os esforços internacionais em pesquisar a eficácia da psicoterapia corporal, o autor parte da hipótese de que o diagnóstico e a intervenção psicocorporal na vertente neorreichiana podem servir como catalisadores no processo de cuidado de pacientes tradicionalmente considerados como psicossomáticos. Privilegiou-se neste livro um método clínico qualitativo de pesquisa, no qual pacientes com queixas somáticas variadas foram submetidos a sessões de psicoterapia bioenergética. Alguns temas levantados pelas pacientes confirmam hipóteses de trabalho discutidas na literatura, tais como: histórico de traumas de desenvolvimento e violência intrafamiliar experiências de abandono, frieza e distanciamento da figura materna um vínculo ambivalente de amor/mágoa com a figura paterna dificuldades de experimentar prazer na vida e na sexualidade sintomas orgânicos surgindo associados a uma crise específica de vida, decorrente de um processo de adoecimento crônico. Este trabalho assegura a convicção de que a escuta diferenciada do corpo no processo terapêutico serve como canal de comunicação que facilita a empatia no cuidado integrado em saúde.
