This book isn't written as a standard tutorial, it has been broken down into two halves to give you full understanding of the Community Starter Kit and then the confidence to create, administer and customize your own site. The second half of the book includes plenty of code, but the emphasis is firmly on guiding you through the techniques to create, extend and customize your own module. This book has been written for ASP.NET developers with a sound grasp of C# and access to Visual Studio .NET. This book uses the Visual Studio. NET version of the ASP.NET Community Starter Kit.
