Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats

The conservation of marine benthic biodiversity is a recognised goal of a number of national and international programs such as the United Nations Convention on Biodiversity (CBD). In order to attain this goal, information is needed about the distribution of life in the ocean so that spatial conservation measures such as marine protected areas (MPAs) can be designed to maximise protection within boundaries of acceptable dimensions. Ideally, a map would be produced that showed the distribution of benthic biodiversity to enable the efficient design of MPAs. The dilemma is that such maps do not exist for most areas and it is not possible at present to predict the spatial distribution of all marine life using the sparse biological information currently available.

Knowledge of the geomorphology and biogeography of the seafloor has improved markedly over the past 10 years. Using multibeam sonar, the benthic ecology of submarine features such as fjords, sand banks, coral reefs, seamounts, canyons, mud volcanoes and spreading ridges has been revealed in unprecedented detail.

This book provides a synthesis of seabed geomorphology and benthic habitats based on the most recent, up-to-date information. Introductory chapters explain the drivers that underpin the need for benthic habitat maps, including threats to ocean health, the habitat mapping approach based on principles of biogeography and benthic ecology and seabed (geomorphic) classification schemes. Case studies from around the world are then presented. They represent a range of seabed features where detailed bathymetric maps have been combined with seabed video and sampling to yield an integrated picture of the benthic communities that are associated with different types of benthic habitat. The final chapter examines critical knowledge gaps and future directions for benthic habitat mapping research.

- Reviews and compares the different methodologies currently being used
- Includes global case studies
- Provides geological expertise into what has traditionally been a biological discipline

From reader reviews:

Mark Frey:

The book Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats can give more knowledge and also the precise product information about everything you want. Why then must we leave the great thing like a book Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats? A few of you have a different opinion about e-book. But one aim this book can give many facts for us. It is absolutely correct. Right now, try to closer along with your book. Knowledge or details that you take for that, you could give for each other; it is possible to share all of these. Book Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats has simple shape but you know: it has great and large function for you. You can appearance the enormous world by open up and read a guide. So it is very wonderful.

Bella Singer:

Are you kind of hectic person, only have 10 or even 15 minute in your day time to upgrading your mind expertise or thinking skill actually analytical thinking? Then you are receiving problem with the book as compared to can satisfy your small amount of time to read it because this time you only find book that need more time to be read. Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats can be your answer as it can be read by you actually who have those short spare time problems.

Virginia McNally:

This Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats is completely new way for you who has intense curiosity to look for some information mainly because it relief your hunger of information. Getting deeper you onto it getting knowledge more you know or perhaps you who still having little digest in reading this Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats can be the light food for you personally because the information inside that book is easy to get by means of anyone. These books acquire itself in the form that is reachable by anyone, that's why I mean in the e-book application form. People who think that in e-book form make them feel sleepy even dizzy this publication is the answer. So you cannot find any in reading a publication especially this one. You can find actually looking for. It should be here for an individual. So , don't miss the idea! Just read this e-book type for your better life as well as knowledge.

Ana Worcester:

Reading a publication make you to get more knowledge from it. You can take knowledge and information originating from a book. Book is published or printed or created from each source that filled update of news. With this modern era like now, many ways to get information are available for you actually. From media

social including newspaper, magazines, science guide, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Ready to spend your spare time to spread out your book? Or just in search of the Seafloor Geomorphology as Benthic Habitat: GeoHAB Atlas of Seafloor Geomorphic Features and Benthic Habitats when you necessary it?
