Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation) Rosenzweig Cynthia & Hillel Daniel

“Top agricultural scientists from around the world have taken up the challenge of sustainable agriculture, with the specific focus on integrating agronomic, climatological, biophysical and socio-economic perspectives and processes. Every chapter (of the Handbook) contributes to addressing the growing food-security challenges facing the world.”

Foreword by Jeffrey Sachs, Director of the Earth Institute at Columbia University

Climate effects on agriculture are of increasing concern in both the scientific and policy communities because of the growing population and the greater uncertainty in the weather during growing seasons. Changes in production are directly linked to variations in temperature and precipitation during the growing season and often to the offseason changes in weather because of soil water storage to replenish the soil profile. This is not an isolated problem but one of worldwide interest because each country has concerns about their food security.

The Agricultural Model Intercomparison and Improvement Project (AgMIP) was developed to evaluate agricultural models and intercompare their ability to predict climate impacts. In sub-Saharan Africa and South Asia, South America and East Asia, AgMIP regional research teams (RRTs) are conducting integrated assessments to improve understanding of agricultural impacts of climate change (including biophysical and economic impacts) at national and regional scales. Other AgMIP initiatives include global gridded modeling, data and information technology (IT) tool development, simulation of crop pests and diseases, site-based crop-climate sensitivity studies, and aggregation and scaling.

From reader reviews:

David Martin:

Have you spare time for a day? What do you do when you have much more or little spare time? That's why, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a move, shopping, or went to the particular Mall. How about open or maybe read a book entitled Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation)? Maybe it is to become best activity for you. You understand beside you can spend your time with the favorite's book, you can better than before. Do you agree with it has the opinion or you have additional opinion?

Catherine Branch:

The book Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation) gives you the sense of being enjoy for your spare time. You should use to make your capable a lot more increase. Book can to become your best friend when you getting strain or having big problem along with your subject. If you can make reading a book Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation) to get your habit, you can get far more advantages, like add your capable, increase your knowledge about a few or all subjects. You can know everything if you like wide open and read a publication Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation). Kinds of book are a lot of. It means that, science publication or encyclopedia or others. So , how do you think about this reserve?

John Burns:

As people who live in typically the modest era should be revise about what going on or data even knowledge to make these people keep up with the era that is always change and progress. Some of you maybe will certainly update themselves by examining books. It is a good choice for yourself but the problems coming to anyone is you don't know what kind you should start with. This Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation) is our recommendation to cause you to keep up with the world. Why, since this book serves what you want and wish in this era.

Rosa Milliken:

Often the book Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison

and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation) will bring someone to the new experience of reading a book. The author style to spell out the idea is very unique. Should you try to find new book to see, this book very suited to you. The book Handbook of Climate Change and Agroecosystems: The Agricultural Model Intercomparison and Improvement Project (AgMIP) Integrated Crop and Economic Assessments ... Change Impacts, Adaptation, and Mitigation) is much recommended to you to read. You can also get the e-book from your official web site, so you can easier to read the book.
