Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing)

These proceedings present technical papers selected from the 2012 International Conference on Intelligent Systems and Knowledge Engineering (ISKE 2012), held on December 15-17 in Beijing. The aim of this conference is to bring together experts from different fields of expertise to discuss the state-of-the-art in Intelligent Systems and Knowledge Engineering, and to present new findings and perspectives on future developments. The proceedings introduce current scientific and technical advances in the fields of artificial intelligence, machine learning, pattern recognition, data mining, knowledge engineering, information retrieval, information theory, knowledge-based systems, knowledge representation and reasoning, multi-agent systems, and natural-language processing, etc. Furthermore they include papers on new intelligent computing paradigms, which combine new computing methodologies, e.g., cloud computing, service computing and pervasive computing with traditional intelligent methods. By presenting new methodologies and practices, the proceedings will benefit both researchers and practitioners who want to utilize intelligent methods in their specific fields.

Dr. Fuchun Sun is a professor at the Department of Computer Science & Technology, Tsinghua University, China. Dr. Tianrui Li is a professor at the School of Information Science & Technology, Southwest Jiaotong University, Chengdu, China. Dr. Hongbo Li also works at the Department of Computer Science & Technology, Tsinghua University, China.

The authors on this planet always try to improve their talent in writing, they also doing some investigation before they write to their book. One of them is this Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing).

Clare Andrews:

Many people spending their time period by playing outside together with friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to enjoy your whole day by examining a book. Ugh, you think reading a book can definitely hard because you have to take the book everywhere? It alright you can have the e-book, bringing everywhere you want in your Cell phone. Like Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing) which is having the e-book version. So , try out this book? Let's notice.

Jackie Frost:

Don't be worry if you are afraid that this book may filled the space in your house, you might have it in e-book method, more simple and reachable. This particular Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing) can give you a lot of good friends because by you

looking at this one book you have factor that they don't and make you actually more like an interesting person. This particular book can be one of one step for you to get success. This e-book offer you information that maybe your friend doesn't recognize, by knowing more than other make you to be great people. So , why hesitate? Let me have Knowledge Engineering and Management: Proceedings of the Seventh International Conference on Intelligent Systems and Knowledge Engineering, Beijing, China, ... in Intelligent Systems and Computing).
