## **Management Options in Breast Cancer: Case Histories, Best Practice, and Clinical Decision-Making**

John Benson, Ismail Jatoi

Management Options in Breast Cancer is the only comprehensive resource devoted to exploring the systematic approach to breast cancer diagnosis, surgery, and postoperative care. This guide is an ideal tool for oncologists, pathologists, radiologists, and gynecologists seeking alternative management options for breast cancer. In addition, trainees will find this text a valuable reference for learning the basic principles and clinical guidelines of the field.

Key features in this stand-alone text:

- an international review of the management options in the field of breast cancer clinical practice
- case-based examples designed to aid in optimal clinician decision-making
- two chapters devoted to rarely-explored topics: male breast cancer and geriatric breast cancer
