The USA and The World 2015-2016 (World Today (Stryker)) David M. Keithly

Instant interpretive history is a difficult and demanding task, and certainly more of an art than some would suggest. *USA and the World* describes not only what happened, but puts events in the context of the past and criticizes policy actions as appropriate. The result goes deeper than most of what appears in current publications. Updated annually and part of the renowned "World Today Series," *USA and the World* presents an unusually penetrating look into America and its relationship to the rest of the world. The combination of factual accuracy and up-to-date detail along with its informed projections make this an outstanding resource for researchers, practitioners in international development, media professionals, government officials, potential investors and students. Now in its tenth edition, the content is thorough yet perfect for a one-semester introductory course or general library reference. Available in both print and e-book formats and priced low to fit student budgets.
