The Grid: Exploring the Hidden Infrastructure of Reality

Marie D. Jones, Larry Flaxman

The Grid: Exploring the Hidden Infrastructure of Reality Marie D. Jones, Larry Flaxman
Read this book and you will never view reality the same way again!

Mainstream science argues that if something can't be touched, measured, quantified, and duplicated in a laboratory, then it doesn't exist! According to this worldview, reality is an unconscious, non-personal mass of matter, which leaves no room for the existence of spiritual or unexplained phenomenon.

But is that *all there really is to reality?*

Marie D. Jones and Larry Flaxman don't think so, and after reading this book, neither will you! In *The Grid*, paranormal investigators and best-selling authors Jones and Flaxman present their theory of the Grid, a divine superstructure that includes multiple levels of existence, the entirety of which make up our reality.

Imagine a towering skyscraper with numerous floors, where each floor represents a different "level" of existence. Matter, spirits, angels, ghosts, extraterrestrials, quantum physics, biology, neuroscience, religion, metaphysics—even paranormal studies—all have their place in the Grid.

And once you have an understanding of the many floors of the Grid and how they are connected, you will learn all the possible ways you can "take the elevator" to access them, such as developing your psychic abilities, deep meditation, out-of-body experiences, and even the use of psychoactive drugs!

Jones and Flaxman will show you how to release the limiting belief that "this is all there is" once and for all by exploring the Grid, expanding your awareness, and empowering your life in the process.

Reality, dear friend, will never be the same again.

Denise Lee:

In this age globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of referrals to get information example: internet, magazine, book, and soon. You will see that now, a lot of publisher that will print many kinds of book. Often the book that recommended to you personally is The Grid: Exploring the Hidden Infrastructure of Reality this e-book consist a lot of the information on the condition of this world now. This book was represented just how can the world has grown up. The words styles that writer require to explain it is easy to understand. The particular writer made some research when he makes this book. That is why this book suitable all of you.

Marsha Gleason:

As a student exactly feel bored to be able to reading. If their teacher asked them to go to the library or even make summary for some guide, they are complained. Just small students that has reading's soul or real their passion. They just do what the trainer want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful images on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this period,

many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this The Grid: Exploring the Hidden Infrastructure of Reality can make you really feel more interested to read.
