Insect Diets: Science and Technology Allen Carson Cohen

Drawing heavily on the field of food science, the book applies the vast resources, information, and methods of this discipline toward a full analysis of the preparation of insect diets. The text discusses the various ingredients and processing steps of successful diets. It details various nutrient classes and explains how the constituent parts of diets meet insect nutritional and feeding needs. The author examines diets in terms of overall insect biology, and explores the physical and chemical interactions of food components. This book offers an expert perspective on diet development and how a program of food quality assessment can be applied to rearing systems.
