Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) Ami Moyal, Vered Aharonson, Ella Tetariy, Michal Gishri

“Phonetic Search Methods for Large Databases” focuses on Keyword Spotting (KWS) within large speech databases. The brief will begin by outlining the challenges associated with Keyword Spotting within large speech databases using dynamic keyword vocabularies. It will then continue by highlighting the various market segments in need of KWS solutions, as well as, the specific requirements of each market segment. The work also includes a detailed description of the complexity of the task and the different methods that are used, including the advantages and disadvantages of each method and an in-depth comparison. The main focus will be on the Phonetic Search method and its efficient implementation. This will include a literature review of the various methods used for the efficient implementation of Phonetic Search Keyword Spotting, with an emphasis on the authors’ own research which entails a comparative analysis of the Phonetic Search method which includes algorithmic details.

This brief is useful for researchers and developers in academia and industry from the fields of speech processing and speech recognition, specifically Keyword Spotting.

From reader reviews:

Bruce Zimmerman:

Do you considered one of people who can't read satisfying if the sentence chained within the straightway, hold on guys this aren't like that. This Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) book is readable by you who hate those straight word style. You will find the info here are arrange for enjoyable reading through experience without leaving possibly decrease the knowledge that want to offer to you. The writer of Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) content conveys objective easily to understand by many people. The printed and e-book are not different in the content but it just different available as it. So , do you nevertheless thinking Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) is not loveable to be your top collection reading book?

Tracey Egan:

The particular book Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) will bring you to the new experience of reading any book. The author style to clarify the idea is very unique. In case you try to find new book to study, this book very suitable to you. The book Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) is much recommended to you you just read. You can also get the e-book through the official web site, so you can more readily to read the book.

Donald Chen:

The book Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) has a lot info on it. So when you read this book you can get a lot of help. The book was authored by the very famous author. The author makes some research ahead of write this book. This specific book very easy to read you can find the point easily after perusing this book.

Michael Ramsey:

Reading can called thoughts hangout, why? Because when you find yourself reading a book particularly book entitled Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) your thoughts will drift away trough every dimension, wandering in each aspect that maybe unidentified for but surely will end up your mind friends. Imaging each and every word written in a book then become one form conclusion and explanation this maybe you never get ahead of. The Phonetic Search Methods for Large Speech Databases (SpringerBriefs in Electrical and Computer Engineering) giving you a different experience more than blown away the mind but also giving you useful details for your better life on this era. So now let us explain to you the relaxing pattern this is your body and mind will be pleased

when you are finished reading through it, like winning a sport. Do you want to try this extraordinary spending spare time activity?
