INTRODUCTORY. In the preparation of this volume it has been the aim of the publishers to produce a work that should in a considerable degree be representative of the prominent and progressive men of our State in professional, business, political, and official life. It was our desire to picture the leading men who are helping to make the history of Maine to-day and who are doing so much to shape its course in the future, so that it shall not only retain its proud position of the past, but keep in the front rank of her sister States of the Republic. It has been well said that he who would satisfactorily study the fabric of a Commonwealth must first study the men who formed it. We all are justly proud of the material progress of Maine of her factories, railroads, commercial and industrial establishments; but these are only the silent monuments of the brains and characters, of the men, who formed them, many of which we herein attempt to illustrate. Men are always a State's best product, and a proper portrayal of them should be regarded as a laudable enterprise. Not all those who deserve recognition appear in this book. To properly present every one who is doing even considerable to help along our interests, and therefore winning in some measure fame and fortune for themselves, would be a task no one would willingly attempt, because of its great magnitude; but we think we can fairly claim that very many of those representing the more important interests of our State appear in this volume. When we first contemplated the work, we thought to publish only the biographies and portraits of living men, but a considerable number of our leading citizens urged us to incorporate into the book the portraits and historical sketches of all the Governors of Maine from the formation of the State in 1820 to the present time. This we finally consented to do.
