Brought to you by A list talent Veronica Grey who shares the Special Humanitarian Award with Leonardo DiCaprio for their tireless efforts to salvage the environment, namely in the short documentary <http://www.WorstSharkAttackEver.com> . To view TV coverage on this book <http://www.YouTube.com/SurfLadyTV> . This lifesaving book is 100% tax deductible! Once every 5 days, someone is bitten by a shark somewhere in this water world of ours. Wouldn't you like to know what beaches don't have the food source of sharks, because that means sharks are not likely to go there? These shark attacks are the authenticated ones. Who knows how many actually happen? These occurred UNPROVOKED because people simply were not aware of sharks in the area. So welcome to the FIRST EVER and ONLY Guide to beaches in the world with no sharks! Here is everything you need to help you plan your next vacation, prepare for a water sport, or relax knowing your loved ones are in a safe body of water. You can check out actual beaches that have never had a shark attack or even a well-documented shark sighting. The ocean is open and technically, a shark CAN swim anywhere, but in reality, it only goes where its food is. And that is not everywhere. For example, if you Google "sharks in Florianopolis, Brazil" you will discover there has never been a shark attack there, or even a well-documented shark sighting. We don't list any places with so much as a well-documented sighting since a sighting could lead to a future encounter. That is how we define a zone to be "shark free." We researched EACH and EVERY popular surf spot in the world to bring you this directory, which also has very helpful practical life saving information such as: what to do should you encounter a shark, how to minimize attracting sharks, etc. This Guide is NOT: A directory of how to locate a surf spot. We tell you WHERE to go, we don't tell you how to get there. Just as in surfing, if you can't paddle yourself to the outside wave, you have no business being there. But it's all good - you can find the spots easily! Why go with this Guide? There is NOTHING else out there like it. We are the first and only Comprehensive Guide (directory) to shark attack-free Destinations of the World. We list over 50 countries with an average of 10 safe and fun surf spots in every country-over 500 destinations to improve your technique! Why become a water sport enthusiast? In today's frantic paced lifestyle, nothing is as therapeutic as a day doing something one enjoys. Very few things are as enjoyable as frolicking in the sea. Creating happy people is a better planet for us all and that is our combined mission. You are helping to refine humanity's mass consciousness when YOU ENJOY YOUR LIFE. Becoming a water enthusiast makes you more valuable on the job market and to your family because you will be a happier, healthier, and more successful version of yourself. IT IS ONLY FROM THIS PLACE OF RELAXATION AND HEALTH THAT YOU WILL ATTRACT MORE WEALTH. No one stressed out and unhealthy attracts real wealth that lasts.
